

RANI FITRIANI

Intermediate Network Engineer

Jakarta, Indonesia | Phone: 08499222994 | Email: ranifitriani@email.com

SUMMARY

Experienced network engineer with intermediate-level skills in network design, implementation, and troubleshooting. Proficient in configuring and managing network devices such as routers, switches, and firewalls. Skilled in routing protocols, VLANs, and security technologies. Strong problem-solving abilities and a commitment to ensuring the reliability and security of network infrastructure. Eager to further develop skills and contribute to maintaining and optimizing network environments.

EXPERIENCE

PT NETWORK MAJU BERSAMA - Jakarta, Indonesia

Intermediate Network Engineer (August 2021 – Present)

- Designed and implemented network infrastructure solutions to meet business requirements and improve performance.
- Configured and maintained routers, switches, firewalls, and VPNs to ensure secure and efficient network operations.
- Conducted network performance monitoring and troubleshooting to identify and resolve issues in a timely manner.
- Collaborated with cross-functional teams to plan and execute network upgrades and expansions.

PT TEKNOLOGI NETWORK TERDEPAN - Jakarta, Indonesia

Network Engineer Intern (June 2020 - July 2021)

- Assisted in network configuration and maintenance tasks, including VLAN configuration and access control list management.
- Participated in network troubleshooting and resolution of connectivity issues.
- Contributed to documentation efforts, including network diagrams and standard operating procedures.
