

# FARHAN SAPUTRA

## Junior Network Engineer

Bandung, Indonesia | Phone: 08499228994 | Email: farhansaputra@email.com

### SUMMARY

---

Dynamic junior network engineer with a passion for designing, implementing, and maintaining network infrastructure. Proficient in network protocols, routing, and switching technologies. Skilled in troubleshooting network issues and optimizing network performance. Strong teamwork and communication skills with a dedication to continuous learning and professional development.

### EXPERIENCE

---

#### PT NETWORK SOLUTIONS - Bandung, Indonesia

Junior Network Engineer (January 2020 – Present)

- Assisted in the design and implementation of network infrastructure projects, including LAN/WAN deployment and configuration.
- Conducted network monitoring and performance analysis using tools such as Wireshark and SNMP.
- Collaborated with senior engineers to troubleshoot network issues and implement solutions to ensure network reliability and uptime.

#### PT TECHNICAL SERVICES - Bandung, Indonesia

Network Technician (June 2018 - December 2019)

- Installed and configured networking equipment, including routers, switches, and firewalls, according to project requirements and industry best practices.
- Conducted network audits and assessments to identify vulnerabilities and propose security enhancements.
- Provided technical support to end-users and resolved network-related issues in a timely manner.

### EDUCATION

---

#### INSTITUT TEKNOLOGI BANDUNG (2015 – 2019)

Bachelor of Electrical Engineering - GPA 3.6

### SKILLS

---

- Network protocols: TCP/IP, OSPF, BGP
- Routing and switching technologies
- Network security principles
- Network monitoring and analysis
- Troubleshooting and problem-solving
- Cisco networking equipment
- Communication and teamwork
- Continuous learning and professional development
