

# LIU HONG

## Blockchain Solutions Architect

Jakarta | +62 843 1143 9223 | liuhong@email.com

### SUMMARY

---

Strategic-minded blockchain solutions architect with 8 years of experience in designing and implementing innovative blockchain solutions for diverse industries. Proficient in Ethereum, Hyperledger Fabric, and Corda, with expertise in smart contract development and blockchain integration. Skilled in leading cross-functional teams and delivering high-impact blockchain projects that drive business transformation.

### EXPERIENCE

---

#### PT BLOCKCHAIN INNOVATIONS - Jakarta, Indonesia

Blockchain Solutions Architect (April 2016 - Present)

- Led the design and implementation of blockchain solutions for clients, including supply chain management, identity verification, and tokenization projects.
- Led the design and implementation of blockchain solutions for clients, including supply chain management, identity verification, and tokenization projects.
- Collaborated with stakeholders to define business requirements and translate them into technical specifications for blockchain solutions.

#### PT DIGITAL TRANSFORMATION - Jakarta, Indonesia

Senior Blockchain Developer (August 2012 - March 2016)

- Designed and developed blockchain-based applications and platforms, leveraging Ethereum, Hyperledger Fabric, and Corda frameworks.
- Implemented decentralized identity solutions using blockchain technology to enhance security and privacy in digital transactions.
- Provided technical leadership and mentorship to junior developers, guiding them in blockchain development best practices.

### EDUCATION

---

#### UNIVERSITAS INDONESIA (2008 - 2012)

Bachelor of Computer Science - GPA 3.8

### CERTIFICATIONS

---

- Ethereum Certified Developer (ECD)
- Hyperledger Fabric Administrator (HFA)
- Corda Developer Certification

### SKILLS

---

- |  |                                    |
|--|------------------------------------|
| • Blockchain security                              | • Blockchain architecture design   |
| • Ethereum, Hyperledger Fabric, Corda              | • Decentralized identity solutions |
| • Smart contract development (Solidity, Chaincode) | • Cross-functional team leadership |
