FERDI KAM

Artificial Intelligence Engineer

Bandung | +62 806 1452 0031 | ferdikam@email.com

SUMMARY

Passionate and dedicated Artificial Intelligence (AI) engineer with a solid academic foundation and 2 years of internship experience. Proficient in machine learning algorithms, natural language processing, and computer vision. Skilled in programming languages such as Python and Java, with a keen interest in exploring new AI technologies and frameworks. Eager to apply expertise in AI to solve complex problems and drive innovation.

EXPERIENCE

Internship - PT AI Innovations (Bandung, Indonesia)
Artificial Intelligence Engineer Intern (June 2022 - December 2022)

- Collaborated with senior engineers to develop and implement machine learning models for various applications, including image recognition and natural language processing.
- Assisted in data preprocessing, feature engineering, and model evaluation to optimize performance and accuracy.
- Contributed to research efforts, exploring new AI techniques and algorithms to address specific project requirements.

Internship - PT Smart Solutions (Bandung, Indonesia)
AI Developer Intern (January 2022 - May 2022)

- Worked closely with the development team to understand project objectives and translate requirements into AI solutions.
- Conducted experiments and tests to evaluate the performance and effectiveness of AI algorithms in real-world scenarios.
- Assisted in the development and deployment of AI-based applications, focusing on areas such as recommendation systems and predictive analytics.

EDUCATION

INSTITUT TEKNOLOGI BANDUNG (2018 - 2022)
Bachelor of Science in Computer Science– GPA 3.9

SKILLS

- Programming languages: Java, Python
- Machine learning algorithms
- Natural language processing (NLP)
- Computer vision
- TensorFlow, Keras
- Model evaluation and optimization
