DWI LESTARI

Web Development Engineer

Jakarta | +62 813 4567 8901 | dwilestari@email.com

SUMMARY

Detail-oriented web development engineer with 6 years of experience in building responsive and user-friendly websites and web applications. Proficient in front-end and back-end development technologies, including HTML/CSS, JavaScript, PHP, and SQL. Skilled in collaborating with cross-functional teams to deliver high-quality web solutions that meet client requirements and business objectives.

EXPERIENCE

PT WEBWORKS - Jakarta, Indonesia
Web Development Engineer (July 2017 - Present)

- Developed and maintained websites and web applications for clients in e-commerce, education, and healthcare sectors, ensuring optimal performance and usability.
- Utilized HTML, CSS, and JavaScript to create interactive user interfaces and responsive design layouts.
- Implemented back-end functionality using PHP and MySQL, including database design, query optimization, and API integration.

PT DIGITALSTRATEGY - Jakarta, Indonesia
Junior Web Developer (April 2015 - June 2017)

- Assisted in the design and development of websites and web applications, following best practices in coding standards, accessibility, and SEO.
- Collaborated with designers and content creators to ensure consistent branding and user experience across digital platforms.
- Conducted testing and troubleshooting to identify and resolve issues, ensuring compatibility and functionality across different browsers and devices.

EDUCATION

UNIVERSITAS TRISAKTI (2011 - 2015)
Bachelor of Computer Science - GPA 3.4
