RIZKI CAHYONO
Cloud Solutions Architect

Surabaya, Indonesia | Phone: 08445554990 | Email: rizkicahyono@email.com

SUMMARY

Experienced Cloud Solutions Architect with a passion for designing and implementing scalable and reliable cloud-based solutions. Skilled in architecting solutions on major cloud platforms such as AWS, Azure, and Google Cloud. Proficient in cloud migration strategies, infrastructure automation, and DevOps practices. Strong analytical and problem-solving abilities with a focus on delivering innovative and cost-effective solutions.

EXPERIENCE

PT TERABIT CLOUD SOLUTIONS - Surabaya, Indonesia
Cloud Solutions Architect (September 2016 – Present)

- Designed and implemented cloud architectures for diverse workloads, including web applications, data analytics, and IoT solutions, on AWS, Azure, and Google Cloud.
- Led cloud migration projects, assessing existing infrastructure, developing migration strategies, and executing migrations with minimal downtime and disruption.
- Automated infrastructure provisioning and configuration management using tools such as Terraform, Ansible, and Kubernetes, resulting in improved efficiency and scalability.
- Implemented CI/CD pipelines to automate software delivery and deployment processes, enabling faster time-to-market and improved code quality.

PT INOVASI TEKNOLOGI MASA DEPAN - Jakarta, Indonesia
Cloud Engineer (January 2014 - August 2016)

- Built and managed cloud environments, including virtual networks, VM instances, and storage solutions, to support business-critical applications and services.
- Implemented security best practices to secure cloud environments, including identity and access management, network security, and data encryption.
- Provided technical expertise and support to development teams, troubleshooting issues and optimizing performance to meet SLAs and business objectives.
- Conducted regular performance monitoring and optimization to ensure optimal resource utilization and cost efficiency.

EDUCATION

UNIVERSITAS SURABAYA (2009 - 2013)
Bachelor of Computer Science - GPA 3.9

SKILLS

- Cloud architecture design
- Cloud migration
- Infrastructure as code (Terraform, CloudFormation)
- DevOps practices (CI/CD, automation)
- Containerization and orchestration (Docker, Kubernetes)
- Security and compliance
- Problem-solving and analytical thinking
